Business Arising	<u>Overview of School Council</u> “School Councils, as advisory bodies, may make recommendations to the school principal or to the Board on any matter that will improve student achievement or enhance the accountability of the education system to parents. School Councils will focus on engaging parents and fostering involvement in their school community as a key factor in improving student achievement and success.” The school council meetings are not the time to address individual concerns. It is extremely important for parents, teachers and principals to work together in a child’s education.	Deb
