## February News 2020

### **Principal's Message**

January has proven to be a very mild month. This has allowed our students great opportunities for outdoor play. In the past two weeks our 'Littles' and 'Middles' have been able to get out in our yard and neighbouring forests to enjoy the outdoors while learning the art of snowshoeing. Students continue to have fun at recess sliding on our little hill in the playground. Just a reminder that if your child wishes to use a toboggan, they need to bring a helmet from home. Hopefully, we will have many more days for these activities to be enjoyed before the spring.

Students in grades 1-2 are continuing their focus on quantity relationships involving specifically addition and subtraction. Students in grades 3 – 8 are also continuing their focus on quantity relationships but with a specific focus on fractions and proportional relationships. All students will be studying the Collection and Organization of Data and Data Relationships in the latter part of February and the early part of March.

Please feel free to contact me if you have any questions about your child's learning.

Sincerely,  
Deb Wines
